## Evening Brief

Date: Sunday July 29<sup>th</sup>, 2018

---

### Weather Summary

\*\*\* High Risk for Lightning Tue-Wed Idaho \*\*\*

\*\*\* High Risk for Gusty Winds/Low RH Thu-Fri Idaho and Nrn UT \*\*\*

Hot and dry conditions will continue today, with an overall decrease in winds, mainly NW to NE 5-15 mph. Overall thunderstorm coverage will be decreasing Monday as the high pressure ridge becomes centered over the Great Basin. However, that thunderstorm respite will be short-lived, as a disturbance rotates around the high from Oregon into Idaho Tue-Wed, with increasing chances of **critical dry lightning** across much of Idaho, and possibly into far northern Nevada/Utah. There will be an area of mixed wetter and dry thunderstorms across parts of central and southern Nevada/Utah during this midweek period as well. This will be followed by **strong winds and drier conditions** across Idaho, Wyoming and northern areas of NV/UT later in the week.

---

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	5	Light Initial Attack Activity
National	5	New Fires and Acres: 24 fires 7,786acres; 151,585 acres large fire growth

---

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

**Fuels and Fire Behavior advisory has been issued for [Nevada](#)**

### Fuels/Fire Potential

ERC's are still near or below the 50th percentile across the southern third of Nevada, Utah, into the AZ Strip, but even there, drier pockets are beginning to emerge, along with an occasional lightning holdover. ERC's are mainly in the 70th to 90th percentile across Northern parts of NV and UT and even drier, across Idaho, where many stations are now at or above the 90th percentile. Wyoming ERC's also steadily rising into the 60th-70th percentiles. Live Fuel Moisture levels across most areas are near late July normals, and grasses are cured in just about all areas, except the highest elevations above 6500 ft. in Idaho and Western Wyoming.

### Resources:

#### Aviation within the Great Basin

- 0 VLAT's, 5 LATs, 4 CL-415
- 20 SEATs, 2 Fire Bosses
- 11 Type 1 Helicopters / 11 Committed
- 11 Type 2 Helicopters / 11 Committed
- 22 Type 3 Helicopters

#### Crews Committed within the Great Basin

- 10 IHCs Committed / 0 Available
- 37 T-2 IAs Committed / 0 Available
